

An Introduction to Focusing the Spectrum of Your Life-Energy!

Rev. Edee Lunday, Jill George (CPC), Richard-Curtis Simpson (CCHt), and Randall (owner of White Sage Music) have teamed up to create an incredible experience of self – discovery. On this journey, you will begin to explore the energy fields of your mind, body, and spirit.

The purpose of this introductory experience, is to assist you in creating an awareness of how bringing these three aspects of YOU into harmony – can free you to live a greater expression of your Divine Self.

You will be introduced to the exploration of the energies of the chakras and discover techniques to assist you in an awareness of these life energies (*using meditation, sound, and focused intention*).
